Where can I forage?

Though most of the more than 2,500 species of mushrooms found in the county are inedible, a dozen or so can be collected, cooked and eaten. Many folks have their secret spots in the county either on private property or at a resort that allows guests to hunt for mushrooms. We recommend you forage with a guide or join one of the many guided walks offered during the festival. Make sure to pick up a permit (\$20) to forage in Jackson Demonstration State Forest. Call 707-964-5674 or visit <http://calfire.ca.gov> and look for the Mushroom Permit link. Maps, applications and FAQs can also be found on the website. **PLEASE NOTE:** It is illegal to forage in State Parks and violations can be punishable with fines up to \$1,000.

Meet California's New State Mushroom— The California Golden Chanterelle!

California has many official symbols representing our state, such as our state animal (California grizzly bear) and state flower (California poppy). Set by state law, California's state symbols provide significant natural, cultural, and historical meaning. Given California's wealth of natural resources and the essential role mushrooms play in maintaining our biodiversity, a state mushroom has finally been added to the family!
